2 Every day, millions of hours are wasted on the road worldwide. Last year, the average San Francisco resident spent 230 hours commuting between work and home—that's half a million hours of productivity lost every single day.

Fast-Forwarding to a Future of On-Demand Urban Air

Common approaches to mapping green infrastructure in urbanised landscapes invariably focus on measures of land use or land cover and associated functional or physical traits. However, such one-dimensional perspectives do not accurately capture the character and complexity of the landscapes in which urban inhabitants live. The new approach presented in this paper demonstrates how open-source ...

1.. IntroductionThe United Nations (2001) estimated that the level of urbanisation in Europe will increase to almost 80% by 2015, compared to 75% in 2000. Urban growth, by altering cities and the surrounding countryside, presents numerous challenges for the maintenance of urban green space, and consequently also for human health and well-being.
