(Click here for more All Girls Allowed videos). Each year, millions of aspiring mothers in China are forced to undergo abortions or sterilizations under the One-Child Policy. For the majority of Chinese people, pregnancy with a second child and any pregnancy without a birth permit is considered "out-of-plan" and therefore illegal.

The demographics of China are identified by a large population with a relatively small youth division, which was partially a result of China's one-child policy, which was modified to a two-child policy in 2015. China's population reached the billion mark in 1982. China's population is 1.411 billion, the largest of any country in the world. According to the 2010 census, 91.51% of the population ...

February 2009. All countries in the world face challenges in dealing with environmental problems stemming from climate change. China's challenges in adapting to climate change are particularly acute as it is a country struggling to prevent even more pollution and natural disasters that stem, in part, from 30 years of unchecked economic growth.
