Design is the creation of a plan or convention for the construction of an object, system or measurable human interaction. Design has different connotations in different fields (see design disciplines below). In some cases, the direct construction of an object (as in pottery, engineering, management, coding, and graphic design) is also considered to use design thinking.

"No Silver Bullet – Essence and Accident in Software Engineering" is a widely discussed paper on software engineering written by Turing Award winner Fred Brooks in 1986. Brooks argues that "there is no single development, in either technology or management technique, which by itself promises even one order of magnitude [tenfold] improvement within a decade in productivity, in reliability, in ...

7 Outcome measurement will explore what your program provides, what its intended impacts are, and whether or not it achieves them. It will not prove that the changes that take place are a result of your program. People often get stuck in the outcome measurement process because of all the terminology.
