

professional search engine optimization pdf

Search engine optimization (SEO) is the process of affecting the online visibility of a website or a web page in a web search engine's unpaid results—often referred to as "natural", "organic", or "earned" results. In general, the earlier (or higher ranked on the search results page), and more frequently a website appears in the search results list, the more visitors it will receive from the ...

Search engine optimization - Wikipedia

SEO stands for "search engine optimization". It is the process of getting traffic from the "free", "organic", "editorial" or "natural" search results on search engines.

List of Search Engines Listed by Types of Searches

In April of 1997 Ask Jeeves was launched as a natural language search engine. Ask Jeeves used human editors to try to match search queries. Ask was powered by DirectHit for a while, which aimed to rank results based on their popularity, but that technology proved to be easy to spam as the core algorithm component.

Search Engine History.com

Search engines are answer machines. When a person performs an online search, the search engine scours its corpus of billions of documents and does two things: first, it returns only those results that are relevant or useful to the searcher's query; second, it ranks those results according to the popularity of the websites serving the information.

SEO: The Beginner's Guide to Search Engine Optimization

Attention: many search engine submission tools don't work. Most search engines don't like submissions from automated submission tools. The reason for that is simple: the creators of most search engine submission software tools don't care about the specific rules of the search engines, and the creators just want to list as many engines as possible.
